

**Help us to win £4,000 towards playground equipment.**

Did you know that over 600 million batteries are thrown away each year? That means that over 20,000 tonnes of batteries end up in landfill sites where they take over a hundred years to decompose. The chemicals in the batteries can pollute the soil and water, harming poor innocent animals and endangering our lives too.

You can do your bit to help our planet by going on a Big Battery Hunt to find all of your used batteries and taking them to our local recycling point.

The Eco Committee have been giving out boxes at school, to help recycle all your old batteries. You can either take them to your nearest recycling facility - Haltwhistle Household Waste Recovery Centre, Sainsbury's or the Co-op or you can also send them back to school - where we will dispose of them for you. Please let us know how many you recycle so we can add them to our score to be in with a chance to win £4,000 towards playground equipment. We have already recycled 1070 batteries so far! I'm sure you are just as excited as we are to go on our Big Battery Hunt to collect and recycle as many batteries as we can find!

Thank you for caring,  
Eco Committee  
Greenhead CofE Primary School  
Dear Parent/Carer

We are pleased to announce that our school has the opportunity to win £4,000 for equipment for our school playground. Please see attached sheet for more information on how you can help us.

Thank you  
Eco Committee
